

Government Funded* Engineering Pathways

Training Details

This program is intended for people interested in employment in an engineering or related working environment. Participants will develop knowledge and skills to enhance their prospects of employment while gaining exposure to the industry.

This program delivers broad-based underpinning skills such as welding, machining, metal fabrication and mechanical knowledge in a range of engineering and manufacturing tasks. The Pathway Program enhances entry-level employment prospects for apprenticeships and traineeships. As a part of this program you will complete a MEM20413 Certificate II in Engineering Pathways, obtain a forklift licence and selected units from FSK20113 Certificate II in Skills for Work and Vocational Pathways.

You will participate in team building and job preparation activities including work placement, ensuring that you are ready to start work at completion of the course.

INTERESTED?

Please fill out the registration form on our website - <http://www.challengeemployment.org.au/express-your-interest/> and you will be contacted by one of our friendly staff. You can also contact our head office on (07) 3282 8000.

Location

Challenge Employment and Training
21 Dunlop Street, Collingwood Park 4300

Duration

13 weeks plus 2 weeks work placement
Monday - Friday, 8.30am-3pm

How will you benefit?

- MEM20413 Certificate II in Engineering Pathways
- Receive your Forklift License
- PPE will be provided
- Learn about light & heavy fabrication
- 2 weeks Vocational Placement
- Interview & resume writing activities
- One on one employment support

Job Outcomes

- Trade Assistant
- Machinist
- Traineeship
- Apprenticeship

What is Skilling Queenslanders for Work?

Skilling Queenslanders for Work helps eligible Queenslanders develop skills, gain qualifications and provide direct assistance to enter and stay in the workforce. Community Work Skills assists disadvantaged Queenslanders to gain nationally recognised skills and qualifications up to a certificate III level.

How you will benefit?

In addition to receiving your MEM20413 Certificate II in Engineering Pathways, you will also be placed in a tailored supportive program catered to your needs as a learner. Challenge employs specialist Language, Literacy and Numeracy Trainers who can assist you through your qualification should you require it and ensure you are confident and competent to enter the workforce on completion of the program.

You will also participate in 5 days per week of work experience while undertaking engineering projects in the community. You will have the opportunity to learn and network with our highly trained and motivated supervisors while also working on industry based engineering projects.

Eligibility

Skilling Queenslanders for Work (SQW) primarily targets Queensland residents who are:

- Ineligible for Australian Government employment services or assistance; or
- Require complementary services because they have significant barriers to learning and employment; or
- Have accessed Australian Government services for more than six months and remain unemployed.

Key target groups for SQW include:

- Young people (15-24 years)
- Aboriginal and Torres Strait Islander people
- Mature age job seekers (45+ years)
- People from culturally and linguistically diverse backgrounds
- People with a disability.

More broadly, disadvantaged jobseekers and under-utilised Queensland workers are able to access assistance under SQW. Participants who fall into this category do not have to belong to one of the target groups listed above.

Participants must be:

- Queensland residents
- Aged 15 years or older
- An Australian citizen, Australian permanent resident (includes humanitarian entrant), temporary resident with the necessary visa and work permits on a pathway to permanent residency, or a New Zealand citizen.

This training is proudly funded and supported by the Queensland Government through its Skilling Queenslanders for Work Initiative. Visit the Skilling Queenslanders for Work website for more information or contact us at our Head Office.
